

**European
Minerals Day**

10 YEARS

10th Anniversary
2007-2017

2007

Theme: "Explore the world of minerals"

Launch of the European Minerals Day

Open days: 100 sites in 17 countries

From 11 to 13 May 2007, more than 100 quarry and plant sites in 17 European countries opened their doors to the public, welcoming more than 30.000 visitors to a wide range of educational activities.

An educational event targeted at the youth

40% events for children & 60% public Events

Initiated by IMA-Europe in partnership with EuLA, Euromines, trade union EMCEF and media partner EurActiv.com alongside 5 national partners in Austria, Belgium, Germany and Italy.

Key outcomes

- European Commission cites the EMD in the Raw Materials Initiative (2008)
- 3 new EU organisations partner up in 2009 (aggregates, cement, geological surveys)

2009

Theme: "Explore the world of minerals"

Launch Event in the Czech Republic (Prague and Beroun)

Open days: 116 sites hosting 170 events in 22 countries plus 5 outside Europe

What's new?

- First European Launch Event (hosts: Lhoist & HeidelbergCement)
- EU support under the Czech EU Presidency
- Welcoming EU Commission VP Verheugen
- Links to EU raw materials policy & EU Biodiversity Strategy
- EU media campaign and Press Conference with support of DG ENVI and DG ENTR
- PR Workshop exchanging good practices
- Biodiversity taken up as a key theme – sites show their programs and work with schools to raise awareness.

2011

Theme: "European Minerals: sustainable extraction for a prosperous Europe"

Launch Event in Bulgaria (Vetovo)

EMD participation peaks with 180 sites hosting over 200 events in 32 countries!

What's new?

- Link to EU Raw Materials Initiative and new EU 2020 strategy for an Innovation Union

- Social media campaign on Twitter & Facebook
- 10 EU partnering organisations
- Record number of visitors in the open days
- Anniversary brochure & branded tools

The world of minerals is fascinating!

Throughout 2007-2017, the EMD received positive coverage in newspapers, by TV and radio stations, and on online media.

Every two years the European Minerals Day gives the opportunity to the European-wide public to explore the world of minerals. It is a Pan-European awareness initiative by the European minerals sector and related organisations.

What?

- ⦿ An industry commitment supporting the European Innovation Partnership on Raw Materials.
- ⦿ Open-door events and educational activities at quarry and plant sites as well as mining museums all over Europe and beyond.
- ⦿ EU Stakeholder Events in Brussels and in the EU Member State hosting the Launch Event

Objectives:

- ⦿ Develop public understanding of mineral raw materials – their essential role in our everyday life as well as their essential role for the EU economy and green growth.
- ⦿ Raise public awareness on how mineral raw materials contribute to innovation and resource efficiency throughout the whole product life cycle.
- ⦿ Demonstrate how the mineral raw materials sector contributes to the preservation of biodiversity and eco-system services.
- ⦿ Raise the profile of the sector and gain public acceptance of mining operations through enhanced stakeholder dialogue, transparency, communication & demonstration of good practices.

We Care about...

Biodiversity

Resource Efficiency

Innovation

Regional Development

Health & Safety

An initiative by the European mineral raw materials sector
with the support of the **European Commission**
